Willswell Technologies Pvt. Ltd.

Outstanding Features

Smaller body, Powerful Interaction

Black and white colors for choices; Plastic shell, after highlighting process, it's more cute and exquisite; Can work with any projectors, no matter what brand, no matter what configuration, it can work perfectly to realize interactive function.

Magic Velcro, Newer Installation Way

Use 3M Velcro backing to fix the base directly on projector or desk, as long as the surface is flat, it also could be lifted.

Willswell Technologies Pvt. Ltd.

Flexible Fixing Base, Easy to Focus

Rotate the camera, you can get horizontal 360° and vertical 120° setting range.

No Need Laser Switch Anymore

After set the angle of signal receiver, calibration program will close laser switch automatically, so there' s no need to operate it manually.

No Switch

Willswell Technologies Pvt. Ltd.

Added Flash Memory Chip

Firstly, response speed is getting extreme fast. Besides, the previous calibration data can be stored, even if you changed the connected PC, you don't have to calibrate again.

Auto-calibration, Flash Across

The original short throw portable IWB has to calibrate many points, it takes a long time.

Now we have auto-calibration function, it can be done by 2 seconds, which endows customers a more convenient user experience. As of now, this feature is still not mature and in many projection environment like brightness, ambient light conditions, the auto-calibration may or may not work.

Willswell Technologies Pvt. Ltd.

Anti-light Interference, More Stable Performance

Strong anti-light interference function, block the light from the same spectrum automatically, improved the products stability to a great extent.

Bundling with New Pen, to be No. 1

Combined with ergonomics, curved body design, makes your hand more comfortable when writing with it.

Willswell Technologies Pvt. Ltd.

With lithium battery inside, it can be charged with USB cable

Specifications

Signal Receiver	
Movement Detection Technology	infrared
Active Area(max projection size)	90 inch diagonal
Active Area(horizontal angle)	+/-30 degrees
Active Area(vertical angle)	0-120 degrees
Calibration Technology	Infrared Positioning
Active Distance(from projection screen)	0.8-4m (Depending on Short Throw or Long Throw Model)
Connectivity Interface	1 x USB Cable (connection distance up to15 m)
Power Requirement	4.5 W (from USB port)
Power Consumption	<1.5 W
Weight	72g

Willswell Technologies Pvt. Ltd.

Magic pen	
Movement Detection Technology	LED light
Voltage	5V
Electric quantity	400mA/hour
Pen Body Dimension	17cm(length)
Weight	43g
Projection Size	Distance between Receiver and Projection Surface
Long Focus	
80 inch	197cm
100 inch	2.38m
120 inch	350cm
150inch	372cm
Short Focus	
80 inch	105cm
100 inch	140m
120 inch	178cm
150inch	195cm
